Zinc Oxide 4% Spray

Abena's Zinc Oxide Cream Spray protects and regenerates the skin, promoting a natural skin restoration for up to 24 hours. Thanks to its spray applicator friction is minimized and the applicator also helps to prevent (re)contamination.

The zinc spray helps to improve skin barrier over time, resulting in hydrated skin that is protected against potential irritants (for example urine). Zinc Oxide is known for its antiseptic properties and the spray has been designed to help calm irritated skin.

- With Calendula and Chamomile to soothe, calm and promote the natural recovery of the skin
- Sprays a perfectly thin layer because of TLT (Thin Layer Tech)
- Use where redness is detected and first signs of IAD is visible
- Shake before using
- Apply a single layer and avoid rubbing
- Use a spraying distance of approximately 5 to 10 cm. It is not necessary to rub the cream
- Use at every diaper change. Dosage according to need
- Do not apply on cracked or broken skin
- No colorants or perfume
- Produced for Abena A/S, DK under ISO 13485, GMP, ISO 22716

Art. no.	Product	Size	pH	Pcs./box
