

Art. no. 6988, 6966, 6970

## Intensive Care Cream

Abena Intensive Care Cream is ideal for dehydrated or very dry skin. Restores the skin's natural moisture level. Suitable for use on hands, body and face. The rich cream content (70%) helps to improve skin hydration, barrier and texture, without leaving a greasy feel.

Contains no colorants or perfume.

- For daily care of dry and sensitive skin. May be used frequently
- Apply and distribute carefully. Dosage according to need
- This product should only be used externally on the body. Avoid contact with eyes.
- Do not use on broken skin.
- Produced for Abena A/S, DK under ISO 9001:2008 and ISO 22716:2007.
